Dear All Current & Future LJHS Parents,

Lincoln Junior High School is excited to be entering the third year of our 1:1 Chromebook initiative during the 2018-2019 school year. Our mission continues to be changing the way students learn and how teachers present lessons at LJHS. Everyone remains excited about the direction we are moving, and it is evidenced by the way our students and staff have responded to utilizing this technology in their classrooms the past few years.

With that said, please be aware there is some additional cost associated with using this technology. The purpose of this letter is to make sure that all parents understand they will be required to pay a \$25.00 technology fee **annually** in addition to their regular registration fees. This specific technology fee is used to provide a warranty that covers the cost of any accidental damage, normal wear & tear, etc. This ensures that the device your child is using, always functions as needed for educational use. Please keep in mind, however, that additional fees may be applied if your child does not properly care for their device.

****Please understand you will be required to pay a \$25.00 technology fee each year your child attends the junior high during school registration.****

Lincoln Junior High School takes great pride in preparing our students for the future. We look forward to providing this tool for our students and will be happy to answer any questions or concerns that you may have. Please feel free to contact me at (217) 732-3535. You may also contact Barb Coffey at bcoffey@lincoln27.net for technology support or technology related questions.

Sincerely,

Michael Workman
LJHS Principal
