What are New Year's Resolutions?

New Year's Resolutions are goals that people set at the began of a new year. People do these in hope to achieve the goals. A lot of people know that they probably won't get their exact goal the way they want, but it is fun to. For some, this is a time to reflect on past mistakes and see how they can change their lives for the better. After all, it is a new year, and it's full of beginnings.

February has always been thought of as a month of romance since the 14th century. Although there are many saints in the Roman and Catholic churches who are known as Valentine or Valentinus, the one who is thought to have coined the day was a Roman during the reign of Claudius II.. After Claudius banned marriage for young men, Valentine wed couples in secret. After Claudius found out Valentine was imprisoned. As the story goes, Valentine sent the first "Valentine" to the girl he fell in love with (his jailor's daughter). The letter was signed, "From your Valentine". This tradition continued and is still practiced today. Over 150 million cards are sent every year. This is the holiday that comes second (next to Christmas)

GROUNDHOG DAY

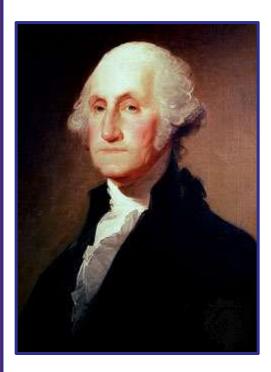

Groundhog day is celebrated on February 2nd to predict when spring will come. We watch as the groundhog peeks out of his whole looking for his shadow. If the groundhog sees his shadow, it indicates that there are 6 more weeks of winter ahead of us. If the groundhog peers from his burrow and does not find his shadow, that promotes the alternative of only two weeks until spring. February second used to be observed by Christians as Candlemas Day. There was a good amount of detail placed into Candlemas one important detail that carried on to create groundhog day was if Candlemas was sunny there would be six more weeks of winter, and if it was cloudy than winter will be over soon.

When the Germans migrated to America they picked up on the tradition with a twist so they could predict when spring would come. They observed hedgehogs to predict the spring season. The hedgehog became the prime animal, because that groundhogs were more abundant in Pennsylvania where the first Groundhog Day was observed.

PRESIDENT'S DAY TAKES PLACE THE 3RD MONDAY OF FEBRUARY. IT , IN PART, CELEBRATES THE BIRTHDAYS OF PRESIDENT WASHINGTON, FEB. 22ND, AND LINCOLN, FEB. 12TH. DIFFERENT STATES CELEBRATE DIFFERENT PEOPLE AND THINGS. ARKANSAS, FOR INSTANCE, COMMEMORATES WASHINGTON AS WELL AS CIVIL RIGHTS ACTIVIST DAISY GATSON BATES. PRESIDENT'S DAY DOESN'T FALL ON ANY ACTUAL PRESIDENT'S BIRTHDAY. WHETHER WE KNOW THE MEANING OF THE HOLIDAY OR NOT, I KNOW EVERYONE ENJOYS THE EXTRA DAY OFF FROM SCHOOL.

Kinkajou

Kinkajous live in tropical rainforests in Central and South America. Kinkajous are actually related to racoons. They are able to turn their feet backwards in order to run in every direction. Kinkajou tails serve as balancers. Kinkajous also use their tails for cozy blankets.

Another name for a kinkajou is a honey bear because they like to raid bee hives. They eat the honey with their long tongue. Their long tongue is also used for getting termites out of their nests. Kinkajous do their daily tasks during the night and sleep during the day.

What do you think of when you hear pi? I don't mean the kind you eat either. Pi is the number of times the diameter will go around the circle (the circumference). I know, I know who wants to learn about more math? Pi is actually really cool. A computer generated about 22 TRILLION numbers. The world record for a human is Akira Haraguchi. He recited 111,700 digits of pi in 2006. The event took place near Tokyo and took him 16 hours and 30 them. Although, his record was never minutes to recite validated by the Guiness Book of World Records. The Pi symbol itself has been used for over 250 years and was introduced by a man named William Jones. March 14th is known as national pi day because the date makes up the first three numbers(3.14). Whether we like pi or not, pi ³⁴⁰⁴²⁵ will remain a useful math tool and a long standing challenge.

Appreciate Your Schoolmates

> Tell someone you like them. It doesn't have to be a crush, just someone you like. You don't even have to use that word; you can just say you respect them. Heck, just pet your cat or play with your dog. Let the people know they

matter and you care about them. One step at a time, let's make the world a better place. By Jenny Mortens

Happy Valentines Day!

I think you're cool; wouldn't you say? I know this may be weird to say, but I think you're nice. I'd <u>love</u> to make your day. I'll show you what I think about love.

-Love is like a lock you try to figure it out, to spend some time it ticks by a clock. Love is in the air, it can be anywhere even around the corner love larks it follows you until its job is done. When you love someone a ton, it seems as if you run from the love like you're scared. You are blind by those around you, but all we need to say is I love you.

To: Anaiya From: Alivia

Dear Best friend,

Hope you're happy. If something were to happen to you I would die. I can't live without you. You were always there for me. If I was not having a good day, you would drop everything to come to me ILY. I hope this friendship can last forever. If something were to happen to me, look at this and remember me. Remember, I will be watching you. I will never leave you. I'm always there for you no matter what happens. ILY, best friend.

Dear Peyton Merreign,

You know me, I am in one of your classes. I really like you. We should date some time.
